### **PRESTWICK CONSTRUCTION BECOMES 100% EMPLOYEE OWNED**

**Atlanta, Georgia, USA** – Prestwick Construction (<https://prestwickconstruction.com/>), is proud to announce that it has become a 100% employee-owned company through the creation of a new ESOP (employee stock ownership plan).

“We’re excited to become a 100% employee-owned business,” said Jody Tucker, CEO and former co-owner of Prestwick Construction. “We are client-focused builders who deliver high-quality residential construction with unsurpassed industry experience. We’re able to go beyond our clients’ expectations because of our exceptional company culture. Our dedicated team building process has been the cornerstone of our company’s success.” Prestwick Construction has developed an award-winning technique that allows it to help price, design, and build outstanding projects throughout the Southeastern United States. “Our transition to a 100% employee-owned company is a natural extension of what enabled us to become a strong, cutting-edge company. Our ESOP is the best investment we can make in each other,” stated Tucker.

Through Prestwick Construction’s ESOP plan, employees will earn shares in the business while working for the Company. The ESOP benefit is funded entirely by company contributions and requires no out-of-pocket investment by employees. Employee ownership ensures Prestwick Construction’s ability to continue serving their customers as an independent enterprise while allowing employees to share in the Company’s long-term growth and success.

“With the best interests of our employees and customers in mind, becoming a 100% employee-owned business secures the Company’s future for all. We believe our employee-owned culture and benefits will help us retain our talented employees, recruit new talent, and continue to provide good jobs locally,” Company President, Jonathan Stickler, commented. “Our ESOP is the perfect embodiment of our company culture where we work as a team. The people that make up this company and their contributions are what makes Prestwick Construction great. Our company stands here today because of their efforts day in and day out and I’m thankful for each and every one of our new employee owners.” Prestwick Construction’s goal is to create an environment where everyone, no matter their job, strives to have a positive impact in the company and their communities, and thinks and acts like a businessperson.

### **About Prestwick Construction**

Prestwick Construction is a contractor that operates in the Southeastern United States. We specialize multifamily projects for market rate, affordable housing, and LIHTC. We deliver exceptional customer service on all projects while following the highest standards of safety practices.
